 January 5, 1835

General Description.

The southern part of this Township is very good. The timber on the Pickawink is sufficient for a small settlement. In the northern part of the Township there is considerable wet land with many small groves of Oak & Hickory. No stone or springs, and the land is mostly level.

I hereby certify that in pursuance of a contract with M. J. Williams, Surveyor General of the United States for the States of Ohio and Indiana, and the Territory of Michigan, bearing date the 27th of September 1834, and in strict conformity with the Laws of the United States, and the Instructions of said Surveyor General, I have surveyed and subdivided into sections Township N. 28 North of Range N. 9 West of the 2^d Principal Meridian, in the State of Indiana.

And I do further certify that the foregoing are the true and original Field Notes of the said survey and subdivision executed as aforesaid.

Certified this 5th of January 1835

Samuel Goodnow
Dep. Surveyor.

Isaac Tomlinson } Chainmen
Frederic Lichlyter }
William D. Porter, Marker.

I certify that the foregoing transcript of
Field Notes of the survey of Township N. 28
North, in Range N. 9 West of the 2. Principal
Meridian, in the State of Indiana, has been
compared with the original on file in this office,
and found to be correct.

Surveyor General's Office,
Cincinnati, Sept. 23. 1844.

William Johnston
Sur. Genl.

Correct.
